UNIVERSITY

## **CEPT UNIVERSITY - CENTRE OF EXCELLENCE - GREEN ENERGY AND ENVIRONMENT**

### **FUNDING SUPPORT FOR CENTRE OF EXCELLENCE**

#### **About the Promoter**

CEPT Research and Development Foundation (CRDF) has been established by the University to better manage the consulting, contract research & capacity building activities. CRDF is organized under thematic groups (or verticals) where each thematic group is focused on a specific area of study and research.

#### **Objective**

CEPT Research and Development Foundation (CRDF) in a mission to provide an impetus for research in energy efficiency focusing on built environment and energy – resource management at large. Therefore CEPT Research and Development Foundation (CRDF) would require funding support to capitalize the objective as well mission of the centre.

## **Solutions**

### **1. Assistance in Fundraising Support**

Considering that Centre of Excellence - Green Energy and Environment is an initiative taken up to succeed and mitigate the challenges faced in Energy and Global Warming issues, Eduprogress assisted the centre in generating funds through Government of Gujarat under the Centre of Excellence scheme. Our team has provided continuous support in terms of preparing the Progress Reports and Activity Plan for approvals and submission at Government of Gujarat level on time to time basis.

### **Result**

The Centre of Excellence of Green Energy and Environment has established in 2015. The centre got the funding support from the Government and has been conducting several research and development activities.
